About

At the beginning of 2016 I decided to make a transition from a career in retail and food service to a career in web/app development and digital marketing. I have always had a passion and curiosity for technology and how it contributes to overall business growth. I think it's amazing that what I can build can solve many digital problems facing businesses today.

Education

May 2016 to August 2016

Front-End Engineering | The Iron Yard | Houston, TX

12-week intensive coding bootcamp where I built ten to fifteen applications using HTML5, CSS3, JavaScript, MongoDb, Express and NodeJS giving me a solid foundation in web development; it's a foundation I continue to build on.

May 2001 to August 2005

University of Texas | Arlington, TX

I earned a bachelor's degree in International Business. I graduated cum laude with a 3.5 cumulative GPA.

Experience

May 2016 to August 2016

Front-End Engineering | The Iron Yard | Houston, TX

Developed responsive web applications using HTML5, CSS3, JavaScript, MongoDb, Express and NodeJS.

September 2011 to August 2015

General Manager | Teavana | Houston, TX

As a General Manager, my daily requirement was to exceed sales plan for the month by leading in personal sales, motivating and coaching a team through standard sales processes.

June 2007 to September 2011

Assistant Manager | Starbucks Coffee Company | Houston, TX

As an Assistant Manager, my daily requirement was to coach and mentor partners to achieve excellent customer service and coffee standards and analyze sales reports to increase profits and control cost.
